

FAQ: PG&E \$10,000 BMW i3 Purchase Incentive Program

Overview: As part of the effort to accelerate clean transportation alternatives in California, PG&E customers are now eligible for a special incentive of \$10,000 off the best-negotiated price on the purchase of a new 2017 and 2018 BMW i3 BEV, i3s BEV, i3 REx or i3s REx. The BEV (battery electric vehicle) models are all-electric, the REx (range extender) models have an additional gas-based range extender.

Q: Who is eligible for the \$10,000 i3 purchase incentive?

A: Customers of PG&E and their immediate family members living at the same address are eligible.

Q: What must I provide to the dealership to receive the \$10,000 i3 purchase incentive?

A: Eligible participants must provide a copy of a filled out customer information form (http://www.pgecurrents.com/wp-content/uploads/2018/02/PGE_i3_Customer_Information-Form.pdf) and a recent copy of their PG&E bill to receive the offer.

Q: Who else is eligible for the \$10,000 i3 purchase incentive?

A: Immediate family members of customers also qualify for this incentive if they reside at the same address as the customer. Proof of residency needs to be provided (such as a driver's license or another photo ID with the matching address) along with the customer's PG&E utility bill.

Q: Where can I locate the official Customer Information Form?

A: The customer information form can be found here: http://www.pgecurrents.com/wp-content/uploads/2018/02/PGE_i3_Customer_Information-Form.pdf.

Q: What vehicles are included in the \$10,000 i3 purchase incentive?

A: The purchase incentive includes all new 2017 and 2018 BMW i3 models, including the i3 BEV, i3s BEV, i3 REx, and i3s REx. No other models are eligible for this offer.

Q: Can I use the \$10,000 i3 purchase incentive with models other than the i3?

A: No, this incentive is just available for a new i3 or i3s (=i3 Sport).

Q: Can the \$10,000 i3 purchase incentive be applied on a lease transaction?

A: No, this incentive is only valid for purchase or finance of the i3 or i3s (BEV and REx models).

Q: Can the \$10,000 i3 purchase incentive be applied on a certified pre-owned or used BMW i3?

A: No, this incentive is only applicable to the purchase of a new 2017 or 2018 i3 or i3s.

Q: Is the \$10,000 i3 purchase incentive applied at the time of transaction?

A: Yes, the incentive is applied at the time of sale and will be deducted from the purchase price.

Q: Can the i3 purchase incentive be combined with other retail promotions?

A: No, this incentive is not combinable with other offers or retail promotions.

Q: Is the i3 purchase incentive only applicable to current inventory?

A: No, this incentive can be applied to current inventory as well as orders placed through May 31, 2018.

Q: When does this program expire for PG&E customers?

A: This offer is valid through May 31, 2018 for PG&E customers.

Q: Which BMW dealerships are participating in this program?

A: The offer is good at any authorized BMW dealership.

Q: I just purchased an i3 - Can I still get the \$10,000 i3 purchase incentive for my car?

A: No, the purchase incentive is only applicable to new purchases made during the offer timeframe (March 1 – May 31, 2018).

Q: Can eligible participants purchase more than one i3 during the program?

A: Yes, any PG&E customer (both residential and commercial) can purchase one or more i3 and the \$10,000 purchase incentive will be applied to each i3.

Q: How many miles can you drive the i3 on a single charge?

A: The United States Environmental Protection Agency (EPA) estimates total ranges for the i3 models as the following:

- 114 miles for the i3 BEV
- 107 miles for the i3s BEV
- 180 miles for the i3 REx and i3s REx

Q: What does i3 REx mean?

A: REx stands for range extender and is a small gas fueled engine that maintains the state of charge when the battery level is low, thereby extending the total range of the i3 to 180 miles. The range extender does not power the wheels or actively recharge the battery.

Q: Do I need special equipment to charge the i3?

A: Every i3 comes with an occasional use cable that can plug into a standard 120V outlet. However, there are charging solutions available that reduce the charging time of your i3. Please talk to your local BMW dealer for details or go to www.bmwcharging.com.

Q: How can I find out where EV chargers are located?

A: EV drivers can find lists of the thousands of public use charging stations available to them through websites such as the U.S Department of Energy's website at www.afdc.energy.gov/fuels/electricity_locations.html.

Q: Is public charging free of charge?

A: It depends. Some public chargers do not charge a fee for charging. Furthermore, new BMW i3 owners qualify for 24 months of free charging at EVgo charge points (30 minutes of free DC fast charging per session or 1 hour of free Level 2 charging per session). See www.chargenowusa.com for details.

Q: How are these purchase incentives funded?

A: The purchase incentive is funded solely through BMW of North America.

Q: How do I receive a \$7,500 federal electric vehicle tax incentive?

A: The federal tax credit is applied when filing for taxes and applied against income tax owed. Customers are encouraged to contact tax professionals to better understand how it applies to their tax situation.

Q: What is PG&E's Clean Fuel Rebate and how do I receive it?

A: The Clean Fuel Rebate is a one-time rebate of \$500 starting in January 2017. By participating in the statewide Low Carbon Fuel Standard program, PG&E generates credits for the clean electricity it provides to customers who charge their EVs at home. After selling these credits to regulated parties, PG&E returns the revenue to customers driving EVs through the new Clean Fuel Rebate.

PG&E residential customers with active electric service who own or lease a battery EV or plug-in hybrid EV can apply for the rebate. A PG&E account holder may also apply on behalf of a vehicle owner in their household or a tenant in a multi-unit dwelling with the vehicle owner's permission. Community Choice Aggregation (CCA) customers are also eligible to apply.

Learn more about the rebate and apply via a simple online application at www.pge.com/cleanfuelrebate-ev.
